VSP® Vision  
Care

**Vision is so important in everything we do, but many Americans have to seek out vision care on their own. When they don't get that care or can't afford it, vision problems may result and could affect their overall health.**

**According to the Centers for Disease Control and Prevention, regular eye exams are an important part of finding eye diseases early and preserving your vision.**

**Nine out of 10 employees say that the quality of their work has been negatively impacted by problems with their vision – and, more alarming, half admit that this is a regular occurrence.**
